Offspring benthic stage duration
Offspring type
Offspring development
Offspring protection
Offspring pelagic stage duration
Annual fecundity
Offspring settlement size
Offspring size
Mobility
Motility
Fertilisation
Reproductive frequency
Age at maturity
Life span
Body mass
Body length
Voltinism
Water depth
Biome
Epi−bioconstruction occupancy
Salinity
Rafting
Sexuality
Bioerosion
Feeding type
Body resistance
Sociality
Degree of attachment
Epi−bioconstruction size
Epi−bioconstruction extension
Epi−bioconstruction type
Sediment biomixing type
Substratum depth occupancy
Foraging depth
Substratum
Sea floor affinity
Biostabilisation
Endo−bioconstruction width
Endo−bioconstruction depth
Endo−bioconstruction type
Ventilation/Pumping
