Received and published: 28 December 2011

Dear referee #1,

Author and co-authors sincerely thank the revision done by the referee #1. The revision of writing manuscript will be done in order to do the manuscript clearer and more readable for the readers. A first approach of the future changes is detailed in the supplement file, where we described the most remarked issues. Then, we encourage the referee #1 to read it and reconsider their comments.

Yours faithfully,

N. M. Fajar on behalf of all co-authors.
