

Interactive comment on “Two weather radar time series of the altitude of the volcanic plume during the May 2011 eruption of Grímsvötn, Iceland” by G. N. Petersen et al.

G. N. Petersen et al.

gnp@vedur.is

Received and published: 6 September 2012

We have revised the manuscript based on comments from the reviewers. Table 1 now includes the minimum detectable signal but otherwise tables and figures remain unchanged.

Please also note the supplement to this comment:
