

Interactive comment on “An internally consistent data product for the world ocean: the Global Ocean Data Analysis Project, version 2 (GLODAPv2)” by A. Olsen et al.

A. Olsen et al.

are.olsen@gfi.uib.no

Received and published: 29 June 2016

Sorry, but after submitting the response we discovered that we had overlooked the final page of referee 1's comments. They are added here:

Figure 6 and 7 are just cited in the text and they have very long captions. I would prefer to have an introduction/justification/explanation of the figure in the text and a short caption.

This has been revised as suggested

References in advance to sub-section 4.4 (page 28, 29, 30) suggests that its content might fit into the The Secondary QC summary section before the description by param-

eter together with Table 11 explanation.

Indeed, this is a good point. We have shifted this section forward as suggested

Page 38, point 5: It is not clear to me, could you explain better? Are those values excluded from product files or included and flagged 9?

Yes, they are excluded from data product and flagged 9, this is clarified in the revised manuscript.
