

Interactive comment on “Weekly water quality monitoring data for the River Thames (UK) and its major tributaries (2009–2013): The Thames Initiative research platform” by Michael J. Bowes et al.

Anonymous Referee #1

Received and published: 21 May 2018

Good data set, well-justified and clearly presented. Absence of any presentation or discussion of data uncertainties remains a substantial weakness.

Please also note the supplement to this comment:
