Interactive comment on "Climate, snow, and soil moisture data set for the Tuolumne and Merced River watersheds, California, USA" *by* James W. Roche et al.

B. McGurk (Referee)

brucemcgurk@comcast.net

Received and published: 16 September 2018

This data set will be a great contribution to the many scientists and modelers who are working in these two basins. It is a great service by the authors to publish the data set – it was a long and grueling process to construct it. I recommend this be published.

Additional data sets for the area are found here:

Lundquist, J. D., et al. (2016), Yosemite Hydroclimate Network: Distributed stream and atmospheric data for the Tuolumne River watershed and surroundings, Water Resour. Res., 52, doi:10.1002/2016WR019261.
