

Interactive comment on “A synthesis dataset of permafrost-affected soil thermal conditions for Alaska, USA” by Kang Wang et al.

Kang Wang et al.

kang.wang@colorado.edu

Received and published: 10 October 2018

The authors thank all three anonymous referees and the editor Dr. Chris DeBeer for their constructive comments and suggestions, which are very important for us to improve the present manuscript and dataset. We have addressed each in turn, and hope that our responses are adequate. Figures and tables were also updated accordingly. Please see the attached *.pdfs for our responses to the reviewers and revised manuscript.

Please also note the supplement to this comment:
