

Interactive comment on “A long-term (2002 to 2017) record of closed-path and open-path eddy covariance CO₂ net ecosystem exchange fluxes from the Siberian Arctic” by David Holl et al.

Anonymous Referee #2

Received and published: 29 November 2018

Unless the data become fully and freely available on Pangaea, urge rejection.

Potentially a strong useful data set but too many deficiencies and weaknesses in the data description. Comments in supplement.

Please also note the supplement to this comment:
