Dear Editor David Carlson,

Thank you for your handling of our manuscript ESSD-2019-252. In response to the short comment from Reviewer #2, we added a sentence in the Caveat section:

“Although we attempted to map each stressor comprehensively, we recognize that some datasets may have missing features, particularly for mine and oil/gas wells -- though large mines and concentrated oil/gas fields have been mapped quite well. ”

Also, we updated the Zenodo repository and so updated in the manuscript the citation and links to the repository.

Many thanks!

Sincerely,
