

Interactive comment on “The Sea State CCI dataset v1: towards a Sea State Climate Data Record based on satellite observations” by Guillaume Dodet et al.

Guillaume Dodet et al.

guillaume.dodet@ifremer.fr

Received and published: 17 June 2020

Please find our response in the attached pdf file named "Response_to_reviewers.pdf". Since this revision implied numerous changes in the manuscript, we have appended a track change version of the manuscript at the end of the document instead of listing all the changes in our response. We hope this will make the reviewing process easier.

Please also note the supplement to this comment:
