

25 October 2019

Dear Professor Sinha

We seek your permission to change a figure in the manuscript essd-2019-56.

During the proof reading stage, I noted that Figure 3a of the manuscript was the incorrect figure (as you can see below Figure 3 is actually a poorly drawn graph of VOC mixing ratios when it should be the time series of PM10 for the SPS1 (Feb 2011) period). This mistake arose because I sent the incorrect figure in to the typesetters.

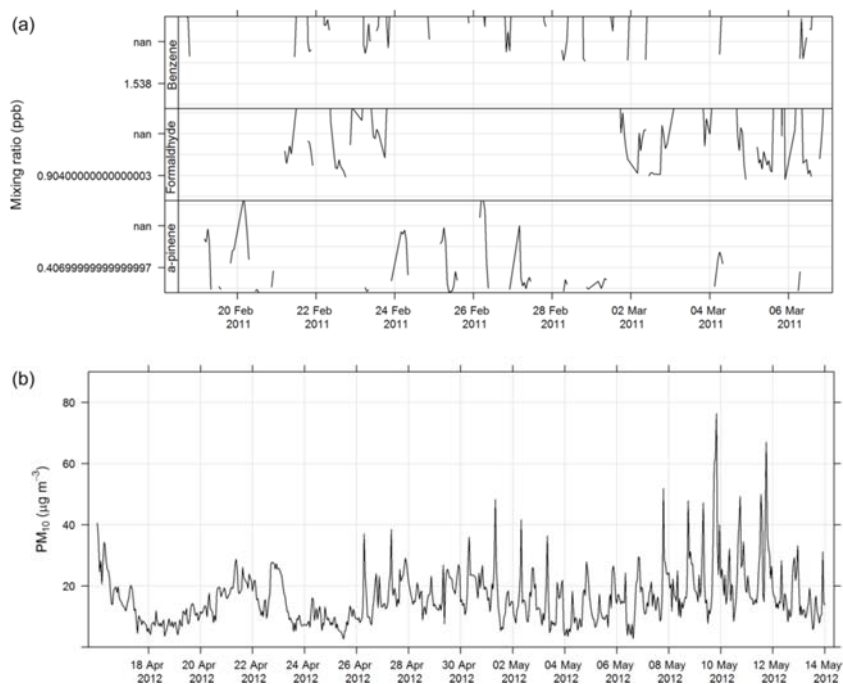

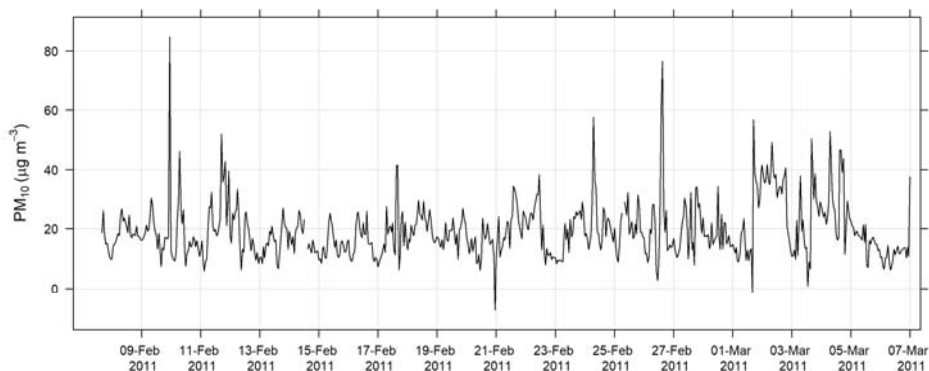

Figure 3. Time series of hourly averaged PM10 concentrations during SPS-I (a) and SPS-II (b).

The correct Figure 3 a is below

Regards

Melita Keywood
