

Interactive comment on “Replacing Missing Values in the Standard MISR Radiometric Camera-by-Camera Cloud Mask (RCCM) Data Product” by Michel M. Verstraete et al.

Anonymous Referee #1

Received and published: 30 September 2019

Building into the software an ability for its users to assess replacement performance is a nice touch. This will enable users to assess replacement performance on scenes of interest to themselves. This capability more than takes care of concerns with the initial content of the paper on this point.
