

Interactive comment on “A distributed soil moisture, temperature and infiltrometer dataset for permeable pavements and green spaces” by Axel Schaffitel et al.

Anonymous Referee #2

Received and published: 5 September 2019

Authors have provided a potentially valuable data set that deserves publication and exposure through ESSD. To merit that publication, however, the authors need to provide a much better, more-thorough and confidence-building assessment of uncertainties. Detailed review in supplement.

Please also note the supplement to this comment:
