Topical editor comments to manuscript essd-2020-149 by Gupta et al. (2021)

We thank the editor for the positive assessment of our manuscript and the constructive feedback. We have made the corrections suggested by you.

Could you please also remove the last typo "Guelf"? I understood that it means the same method and that it is spelled "Guelph".

Answer: Thank you for noticing this. We have now removed the typo (P11L24).

It would be good to mention in the "Data availability" section that your Zenodo collection of files contains more than is described in the manuscript. It is much better to understand now on the Zenodo landing page and even better in the Readme, but it would be good to add a sentence to this section of the manuscript as well, to be clear from this end.

Answer: Thank you for your suggestion. We have now added a sentence to the "Data availability" section of the manuscript.

Best regards,

Surya Gupta
