Received and published: 25 January 2021

We have answered point-by-point to all the comments raised by the referee 1 and 2 in the attached PDF. The answers are provided below each comment in blue font. We would like to thank the reviewer for the quality and detailed reviewing provided. We would also like to notify the referee that this manuscript was selected as an Executable Research Compendia (ERC) pilot (see here <https://o2r.info/pilots/>) and the code to process the data and the table and figures will be available and reproducible after reviewing.
