Many thanks for your thoughtful comments.

As the suggested changes are minor we will address each suggestion in due course, amending the manuscript where necessary.

As a point of discussion, we would like to note that we use the Antarctic Place-names Committee approved spelling of ice streams and glaciers along the English Coast: <https://apc.antarctica.ac.uk/gazetteers/latest-additions-bat/>. It is therefore our intention to leave the spelling as it is in our original submission.

We hope you agree with our spelling decision and we look forward to incorporating your suggested changes in our revised manuscript.

Thanks again,

Kate
