Interactive comment on "Trade-wind clouds and aerosols characterized by airborne horizontal lidar measurements during the EUREC^{4}A field campaign" *by* Patrick Chazette et al.

Anonymous Referee #1

I have attached my review as a supplement. I would appreciate it if the authors could address these issues and if I could see their point by point responses someday. I am happy to look at it again if the editor wishes but I don't require seeing it. Thank you.

Please also note the supplement to this comment: https://essd.copernicus.org/preprints/essd-2020-189/essd-2020-189-RC1-supplement.pdf
