Received and published: 15 November 2020

Quality of the paper is very high, with an elevated level of accuracy and completeness. Data availability, as well explained, will save a lot of time and will increase quality of research for many ecologists. Thanks to this paper, general scientific community will know as long term ecological research is valuable and well organised also at European level.

Non specific comments.

Only one technical coorection: delete "(" at row no, 139.

C1

Good luck, Bruno Petriccione
