Dear Editor,

In response to the last comments by the referee, I have attached the files (final version and track changes version) with the changes requested. Briefly, these changes consist of:

- The publication of the code used to reproduce figures, supporting information and appendices in a Zenodo repository (https://doi.org/10.5281/zenodo.4727825). I have updated section 7 of the manuscript accordingly.
- Replacement of the DOI handle pointing to the SAPFLUXNET database version 0.1.5 in Zenodo (https://doi.org/10.5281/zenodo.3971689). This has been changed in the README file of the code repository (https://github.com/sapfluxnet/sfn_datapaper).

I would like to thank you for handling the manuscript and the reviewers for providing very useful feedback to improve the paper.

Best,

Rafael Poyatos,
on behalf of the co-authors
