

Response to the reviewers' comments (rev 2)

Deggim et al.

We would like to thank the editor Christian Voigt and the two reviewers for their feedback and comments. Following their suggestions, we have made the following changes:

- L. 246-247: We added further information about the radius of spatial radial Gaussian window.
- L. 291: We added the missing reference for Glacial Isostatic Adjustment (A et al., 2013).
- Some minor rephrasing and spelling corrections were carried out, see marked-up manuscript version.

Best regards,

Simon Deggim and Annette Eicker (on behalf of all co-authors)
