Received and published: 7 April 2021

Dear Dr Bianca Wagner, Thank you very much for the detailed review, comments and suggestions of our manuscript on the “Very high-resolution terrain surveys of the Chã das Caldeiras lava fields (Fogo Island, Cape Verde) submitted to ESSD. We hope that with the significant changes we have made to the manuscript, following your comments, but also integrating the comments from other three reviewers and from the public discussion, the manuscript is now in good shape to be accepted for publication in ESSD. We attach the RC2-supplement file with our replies to your questions and you may see them implemented in the .doc file with the track changes. Our sincere thanks for the time you have put into this review. Best wishes, Gonçalo Vieira
