Received and published: 10 April 2020

Dies Vincenzo Capozzi and co-authors,

We have already received two referee comments to your manuscript and I wanted to encourage you to take the opportunity of our public peer review and address the referee’s comments in the public discussion while this is still ongoing (until May 1st)! Some authors of previous submissions even proceeded with the revision of the paper (within the public discussion) in cases when the referee reports were being submitted

[Discussion paper](#)

at such an early stage. All referees are receiving notes whenever you are answering their questions and comments and would have the opportunity to react to them or taking a look at your revised manuscript.

Many thanks in advance and especially for having chosen ESSD kind regards,

Kirsten Elger
