Dear Editor and reviewer:

We are very grateful to you and reviewers for your constructive comments and suggested amendments on our manuscript “Early season mapping of winter wheat in China based on Landsat and Sentinel images” (MS No.: essd-2020-69). The comments have helped improve the paper quite tremendously. We have carefully studied the comments, and revised our manuscript accordingly. Consequently, our manuscript has been considerably improved.

Please see the supplement.

Please contact us if further materials or information are required. We deeply appreciate
