Received and published: 11 June 2020

Dear Franz Goerlich and co-authors, the interactive discussion for your manuscript on surging glaciers in the Pamir will close in three days on 14 June 2020. I would be happy if you could use the opportunity to answer some of the referee comments in the public discussion. This gives the referees the opportunity to react on your answers before the discussion will be closed.

many thanks and best regards,

Kirsten Elger
