1. The QScat data set was tried to download, but failed. The web page display "403 Forbidden". Whether this data can be downloaded publicly now or not.

2. It is suggested authors to draw the spatial distribution maps of CScat, ERS/ASCAT, QSCAT data and compare their spatial distribution difference.

3. Comparing with radar backscatter dataset with monthly scale, the radar backscatter dataset with daily scale will be more useful for applications of vegetation, soil et al,. It is suggested that authors publish dataset with daily scale first, then the dataset with monthly will be synthesized.
