Re: [essd-2022-355 (author) - manuscript accepted with corrections] Antarctic Bedmap data: FAIR sharing of 60 years of ice bed, surface and thickness data by A. Fremand et al.

Dear ESSD,

Thank you very much for accepting our paper to ESSD. Please find attached our revised manuscript following your constructive feedback.

In particular, we have deleted the first sentence to avoid any confusion. The Figure 2 has now been transformed into a table and the subsection title of our Jupyter notebook has been changed to "Plotting flight lines" (see https://antarctica.github.io/PDC_GeophysicsBook/BEDMAP/Create_ShapeLines_for_BEDMAP3.html#plotting-flight-lines).

With best wishes,

Alice Fremand (on behalf of all co-authors)
