

6. Supplement

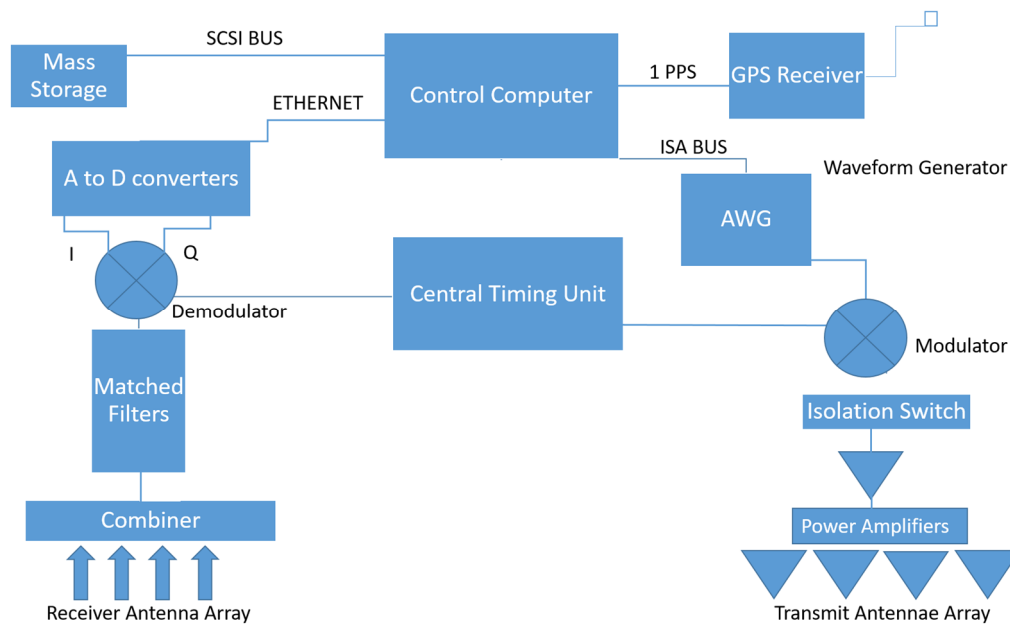

Figure S1. Digitised version of the diagram describing the set-up for the “BAS-built” radar system (Corr and Popple, 1994).

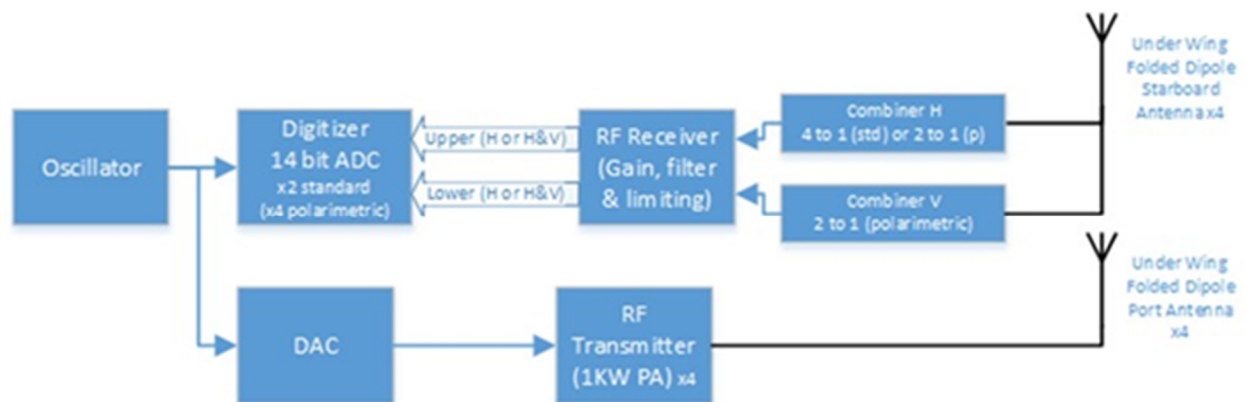

Figure S2. Diagram describing the set-up for the PASIN-1 radar system.

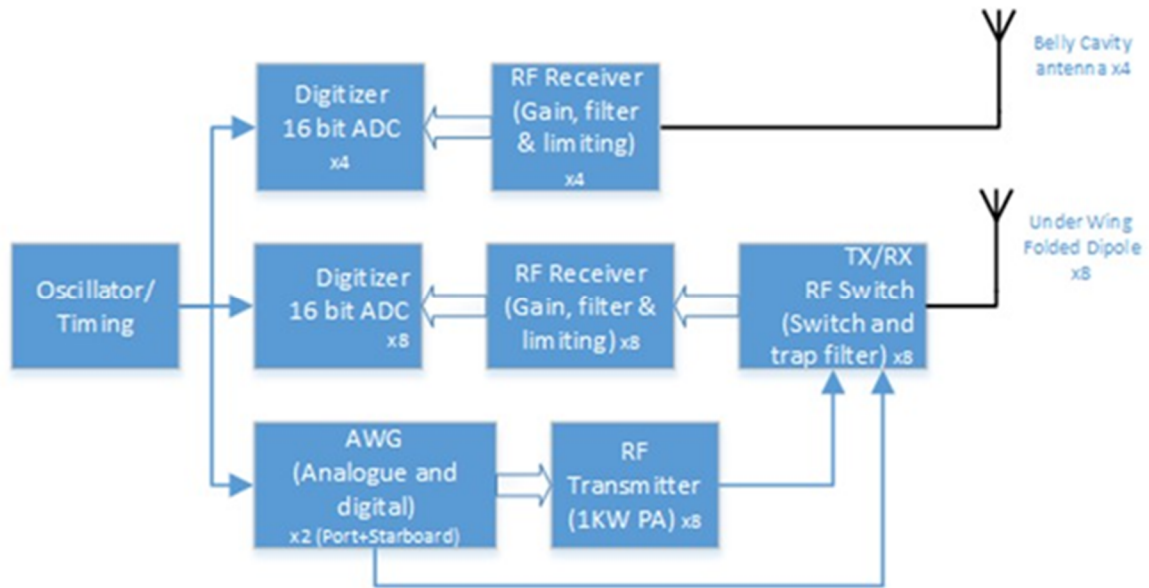

Figure S3. Diagram describing the set-up for the PASIN-2 radar system.

Table S1: PASIN-2 Radar Transmit (Tx) and Receive (Rx) Description. “*” indicates Tukey-weighted.

| Waveform type (frame uS*) | Port | Starboard |
|---------------------------|---|---|
| 1. 0 to 64uS | Tx 4uS chirp*, Rx for remaining frame | Rx full frame |
| 2. 64uS to 128uS | Rx full frame | Tx 4uS chirp*, Rx for remaining frame |
| 3. 128uS to 192uS | Tx 4uS chirp* 180° out of phase with waveform 1, Rx for remaining frame | Rx full frame |
| 4. 192uS to 256 uS | Rx full frame | Tx 4uS chirp* 180° out of phase with waveform 2, Rx for remaining frame |
| 5. 256uS to 320 uS | Tx 1uS chirp* (15dB down), Rx for remaining frame | Rx full frame |
