Piepenburg et al.:
"PANABIO: A point-referenced pan-Arctic data collection of benthic biotas"

Response to Topic Editor Comment from 12 Nov 2023:

Topic editor decision: Publish subject to minor revisions (review by editor)
by Giuseppe M.R. Manzella
"I am courtsily asking the authors to add the data set DOI. Soon after the paper can be published."

We have added the PANGAEA DOI assigned to the PANABIO data collection, which features the specific DOIs to each of the 27 individual datasets.

Moreover, we have updated the numbers of stations, records, taxa, etc. according to the data validation during the review of PANGAEA data submission.
