**Table S1.** GIS experts involved in digitizing rock glacier outlines

<b>S. No.</b>	<b>Name</b>	<b>Affiliation</b>
1.	Dr. Irfan Rashid	Senior Assistant Professor, Department of Geoinformatics, University of Kashmir.
2.	Dr. Saurabh Vijay	Assistant Professor, Department of Civil Engineering, Indian Institute of Technology Roorkee.
2.	Ms. Seerat Magray	PhD student, Department of Geoinformatics, University of Kashmir.
3.	Ms. Aneaus Sheikh	PhD student, Department of Geoinformatics, University of Kashmir.
4.	Mr. Nadeem Ahmad Najar	PhD student, Department of Geoinformatics, University of Kashmir.
5.	Mr. Danish Rafiq Kashani	PhD student, Department of Geoinformatics, University of Kashmir.
6.	Mr. Faisal Zahoor Jan	PhD student, Department of Geoinformatics, University of Kashmir.

**Figure S1.** Sample of rock glacier outlines delineated by various GIS experts. Satellite image credits: ESRI Basemap, ArcMap 10.1.

**Figure S2.** Correlation between automatic and manual Lw of rock glaciers in the study area.

**Figure S3.** Field photographs of rock glaciers in the Pir Panjal Range: (a) A panoramic view showcasing rock glaciers with RGID (RGU339166N744153E, RGU339244N744189E, RGU339410N744018E, RGU339350N744211E, RGU339293N744283E, RGU339189N744282E), (b) Collecting GPS readings at the toe of the rock glacier, and (c) Installation of ground surface temperature data logger for collecting temperature data in the permafrost landscape
