

We sincerely thank the Editor for handling our manuscript and for the time and effort devoted to the review process. We also appreciate the opportunity to further revise and improve the manuscript. Our response to the comment is provided below.

Dear Authors,

Thank you for addressing all the reviewer comments. Just one minor change. In figure 6 and y7 please change: Axis1 (solid red curve) and Axis2 (solid 420 purple curve) are the two AR axes in DB1, and DB2 Axis (solid orange curve) is the AR axis in DB2. To: DB1 Axis1 and Axis2 are shown by the solid red and purple curves, respectively. DB2 axis is shown by the solid orange curve. The current phrasing is unnecessarily circular.

Reply: Thank you for your helpful suggestion. We have revised the relevant text accordingly.
