The authors have replied to my comments. There is one additional edit I suggest to be implemented.

Once these is made, I agree with the publishing of the revised manuscript.

Edit:

1) table 1, CMEMS data: There is no need to use two separate cells for “Drifters” and “Drifting buoys.” You can use a single term, “Drifting buoys,” as to the best of my knowledge, these refer to the same type of instrument.
